

Sustainable Fisheries Committee: Action Guide and Next Steps for Tab E

Agenda Item IV: Framework Action - Historical Captain Permits Conversion

Timeline Status: Final Action

Council input and next steps: Council staff will present an abbreviated framework action that would provide an opportunity to replace Gulf of Mexico reef fish and coastal migratory pelagic (CMP) historical captain permits with standard Gulf charter/headboat (for-hire) permits. The Committee should review the information presented, ask questions and, if deemed appropriate, recommend that the Council take final action on the abbreviated framework action.

Agenda Item V: Allocation Review Guidelines

Timeline Status: Presentation and Discussion

Council input and next steps: Council staff will present allocation review guidelines. Allocation reviews are mandated by the NMFS Allocation Review Policy. The review guidelines outline the process to follow to conduct allocation reviews in the Gulf of Mexico. The Committee should consider the information presented and ask questions. The Committee is expected to review the information presented and give feedback. If warranted, the Committee would recommend that the Council approve the guidelines for publication on the Council's website.

Agenda Item VI: Other Business

Timeline Status: Potential Additional items

Council Input and Next Steps: Additional items may be brought up for discussion by the Committee, time permitting. If the Committee wishes to pursue action, then action can be scheduled at a future Council meeting.
