

## **Public Comment Summary**

### **Continuation of Management Measures to Reduce Reef Fish Release Mortality**

**Written comments received between August 2025 and November 3, 2025**

2 comments received.

- Support for requiring the use of venting tools and descending devices
  - Takes little time to do it right.
  - Should be encouraged and practiced by everyone.
  - Proven to benefit reef fish conservation.
- Abbreviated frameworks should not become standard practice to allow the public full opportunity to review and provide input.
